TECHNICAL SKILLS

MongoDB, Express, React, Node
(MERN)
Javascript

Database (SQL, Mongo)
Amazon Web Services (AWS)
jQuery

RESTful APIs
Simple Storage Service (S3)

SUMMARY

Fullstack Web Developer skilled in communication, analytical problem solving, and an interest in helping others. Recognized in current role for identifying a key efficiency obstacle and developing a technology solution. Comprehends new ideas quickly and am excited to work in a team, goal-oriented environment.

EXPERIENCE

Case Management Lead Representative - *Evernorth (Cigna) Behavioral Health | Eden Prairie, MN*
March 2019 - PRESENT

- Responsible for creating thorough documentation for every customer interaction.
- HIPAA trained and maintained confidentiality of patient records and inquiries.
- Developed an application, initially in PowerShell script and then in VBA, to send availability inquiry emails based on a list of providers in a member's region, providing an efficiency increase and time savings. Then responsible for training the department in use of the new program.

Research/Project Management Assistant - *University of Minnesota | Minneapolis, MN*
January 2018 - March 2019

- Synthesized content that was accessible and understandable by the general public.
- Facilitated weekly meetings and assisted with overall project management duties including correspondence with research team, external consultants, and investigators.
- Assisted in maintaining engagement with study participants.
